COUNCIL STUDIES CLAIMS

Promises Thorough Investigation Into Bus Charges

Thorough investigation into charges resulting from the claims of four former Daly City bus drivers for \$257.70,—alleged still owing them for driving services—was promised by the Daly City council Monday evening at an adjourned meeting in the city hall.

The council unanimously authorized the issuance of a subpoena requiring ex-city engineer Julius F. Castelan, two secretaries, Miss Anne Downall and Mrs. Ann Ingersoll, and the four drivers, Don Rigler, George McCleod, Arlie Beecher and E. R. Clark, to appear at next Monday evening's council meeting.

Drivers claim that Castelan destroyed their time sheets, making out new ones of his own.

"Don't worry, you'll get your money," Bus Driver McCleod quoted Castelan as saying. "It's like putting money in the bank."

In a letter written to the city council, July 20, Castelan readily admitted that the bus drivers worked more hours than they were paid for but denied that he had ever promised them payment on the part of the city for their overtime.

"The fact that the drivers were working more than 48 hours per week was well known and it was

Improve Bayshore—

A. D. Wilder, San Francisco city public works director, disclosed plans last week for widening of Third street from Mariposa to Twenty-sixth avenue providing a 100 foot highway to the Bayshore.

Work on the Third street highway was ready to start. Wilder estimated the costs of the Third street improvements at \$300,000.

Wilder also revealed plans are being considered for tunnels under Telegraph and Russian Hills in San Francisco to link three major highway projects now under construction or under consideration.

The highways which would be connected by the tunnels are those on Lombard street in the Marina; Third street, and the Embarcadero.

Colma To Enter Fiesta Exhibits

George Lagomarsino, president of the Colma Vegetable association, announced today that the organization will again be represented in the agriculture section of the annual San Mateo County Fiesta at Bay Meadows, September 19 to 22.

Lagomarsino, Fiesta officials said, also will enter individual displays from his several ranches. According to Chester Lipman, secretary-manager of the Fiesta, Lagomarsino will be one of the large individual exhibitors at the Fiesta.

Lipman pointed out that Colma, which produces more than 130 varieties of agricultural products, always has had an extensive display, and this year is expected to have an unusually large exhibit.

Meanwhile, it was announced that impartial, expert judging will mark distribution of the \$15,000 in prizes going to the winning exhibitors.

The judging will be directed by Fred J. March, Hayward, a senior nursery inspector for the State Department of Agriculture and well known floriculture expert.

March will be assisted by Mrs. George Helms, San Leandro, known throughout the state in flower and garden circles, and 70 floriculture experts from all parts of California.

"Judges for all classes of professional competitive displays have been selected for their fairness and experience," according to Fiesta Board of directors.

Eight Jailed In Street Riot

Eight persons were jailed late Saturday evening and a ninth sent to the Villa hospital as the result of a riot in front of the Little Italy hall, 6229-A Mission street.

Daly City police arrived at the scene at 12:30 p. m., to find a free-for-all in progress at the site of a dance sponsored by a local organization. Charges that several persons had tried to crash the party were made by members of the club.

The eight persons taken into custody were released Saturday morning and will appear next Friday afternoon before Judge Wade H. Clay on a charge of disturbing the peace. Also appearing will be William White, 290 Nevada street, ninth member of the group, who was released from Villa sanitarium after treatment for minor injuries.

DALY CITY SCHOOLS OPEN MONDAY

Parochial School Opens August 26

Anticipating an enrollment which will top figures for previous years, Our Lady of Perpetual Help school staff members were busy today completing last minute details for school's opening, next Monday.

One new class room will be opened and the entire school has been thoroughly cleaned for the new term.

Monday will not be a regular class day, but pupils will register at 9 a. m., and receive their books. The regular program of study will begin the following day.

"We shall be glad to have students register early," said Sister Superior.

Predict Great Future For S. F. Peninsula

With aviation today's industrial "pet" of the nation, development of the San Francisco Peninsula as one of the country's foremost air centers is attracting the attention of allied industries, according to Granville Browning, secretary of San Francisco Peninsula, Inc.

"These industries, aware of the new \$10,000,000 Army Air Base Research Laboratory at Sunnyvale and the projected establishment of United Air Lines headquarters at Mills field, are giving the Peninsula serious consideration for favorable sites, facilities and other natural advantages in this area," Browning added.

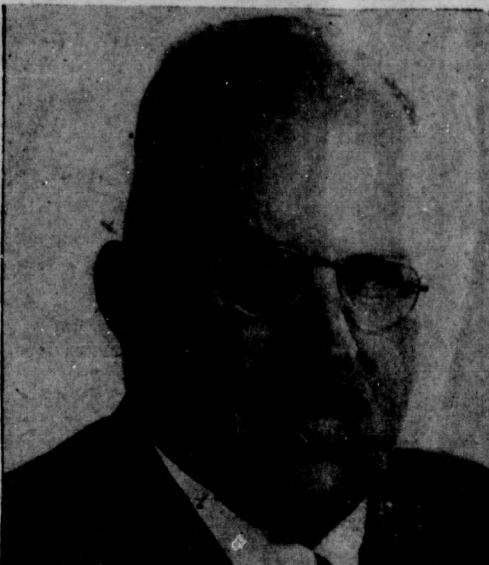

"While these studies are so far only tentative ('feelers' as to the opportunities existing), they nevertheless indicate that the San Francisco Peninsula area will continue to keep pace with the proposed huge increases in aviation facilities and production throughout the United States which will probably be in full stride by the latter part of 1941."

OUTLINE FALL PLANS

Recreation Schedule Includes Varied Activities

Three major objectives were announced today when Supervisor Bruce H. Boynton, Daly City WPA Recreation department, outlined the Fall program.

Daly City's recreation program is a very comprehensive one and includes activities for all age groups and types of interest. Details will be found in the schedule on page 4.

First objective will be more emphasis on crafts for boys, Boynton said.

Metal craft and leather work have been added to the already broad craft program, to provide classes particularly suited to boys. All of the usual crafts—sewing, basketry, bead work, soap carving, ceramics, wood-burning, doll-making, plaster casting—will be offered for adults and children.

The Recreation department's second objective is the development of a more extensive club program for boys, girls and adults.

"There will be a club for everyone, this Fall," Boynton announced. "Whatever your interest, whatever your age—you're sure to find a congenial group," he

Doors of Jefferson Union high school will re-open August 26, and registration will begin promptly at 8:15 a. m.

An increase in enrollment is expected, according to Principal James Ferguson.

Several major improvements, as well as rehabilitation of the entire school plant, have been made. The scope of the library is to be increased by the purchase of \$500 worth of new books. Work has already begun on the new \$25,000 Industrial Arts building.

The high school cafeteria, which increased in popularity so markedly last year, has been made more efficient by the addition of a new electric refrigerator, an electric mixer and bread-cutter. A new section has been added to the stove and a modern sink installed.

The floors in the dining room have been done over and everything put into excellent order. One hundred per cent rating is given the high school kitchen and dining room by the board of health. Another addition is the new dining room for teachers, located just off the main dining hall.

The entire appearance of the school has been improved by the installation of new linoleum in all halls. Hall walls are newly painted an attractive green and cream. All floors have been washed and refinished.

Night school sessions will open the second week of school. First meeting will be on September 3. Classes are held each Tuesday and Thursday evening from 7 until 9 p. m. Courses offered will include Americanism, shorthand, typing, bookkeeping, industrial arts and pottery.

Principal Ferguson laid special stress on the importance of opening day to high school students.

"It is the greatest importance to register on the first day of school, August 26, as most of the

Six-Year-Old Turns In False Alarm Sunday

Daly City firemen hastened to the Crocker school Sunday afternoon only to discover that the alarm, turned in by a six-year-old boy, was false. Police Officer Rico Benedetti returned the child to his home, where his mother "attended to the rest of it."

Chief Chesney reported that he recently turned in three automobile license numbers to the police department for citations for following too close to the apparatus, interfering with their progress in answering alarms. All cars are warned against such procedure.

Four New Teachers On Jeff Faculty

Faculty members at Jefferson Union high school for the new year will number 31, according to an announcement made today by Principal James Ferguson.

San Jose State college, and have attained distinction in their academic work.

Mr. Tsoutsouvas, who will teach commercial arithmetic, salesmanship and physical education, attended Stanford university and has both A. B. and M. B. A. degrees. He will serve as one of the football coaches this fall.

Miss Fillmore, A. B., San Jose State college, will be library instructor this year.

All four new members of the teaching staff come to Jefferson Union high school with excellent records of past attainments in scholarship and ability.

Six New Citizens In Daly City—Colma

Six new citizens from this area were welcomed into the democracy of the United States of America at the close of recent naturalization classes conducted at the courthouse in Redwood City, the county clerk's offices revealed today.

A total of 82 persons were naturalized in hearings conducted in superior court. The list from this community included:

Daly City—Christian P. Rauschan (Scotland); Effie P. Agnost (Greece); Gina Picchi (Italy); Minnie Young (Canada).

Colma—Agnese Cortopassi, Livia Pellicci (Italy).

concluded.

Third major step in the field of recreation will be the instigation of dramatics for grammar school youngsters. It is planned to carry out a wide and varied program of dramatics for this age group. Details will be announced later.

"Most exciting innovation this fall," exclaimed Boynton, "will be the making of musical instruments. Not only will this be an entirely new craft here—it will open the way to the development of rhythm bands for the youngsters."

Boynton announced that an active sports program for both children and adults would be developed during the Fall as the season for each sport opens.

"Daly City's Recreation program is for **everyone**," Boynton stressed in conclusion.

class work will begin on the second day. Students who fail to appear on the first day, hinder themselves and impair the efficiency of the school. They get behind in their work and must make it up. It has been found that many failures in school are due to late registration and absence because students are never able to catch up with their work."

Four assembly periods and one home-room session will be held each week. Two dances are to be held each semester, with the probability of a senior ball in January. Rallies will be conducted before all league games. Details of extra-curricular activities will be announced later.

Catholic Daughters Celebrate Tenth Birthday

Flowers, music and special ceremonies brought poignant memories of the past to Court St. Mary's No. 1155, Catholic Daughters of America, Thursday evening, when the group celebrated its tenth birthday.

Shortly after the opening rites, the charter members were escorted in and given special seats of honor. The officers of ten years ago were seated to the right of the present officers.

The order's first grand regent, Mrs. Josephine Johnson, was unable to attend because of her husband's illness, but wished the court continued success and a very happy birthday.

First officers of the court who attended were: Mrs. Margaret Fields, vice regent; Mrs. Helen Rode, historian; Mrs. Adele Hecht, financial secretary; Mrs. Louise Segale, monitor; Mrs. Christine Michelson and Mrs. Alma Parmisano, trustees. Many of the first members also attended.

Vocal selections were presented by Miss Peters of Court Seleccion, San Francisco; Mrs. Adele Hecht, Court St. Mary's organist, and Reverend Father Thomas Phelan, the chaplain.

Entertainment was arranged by Mrs. Kathryn McDermott. Father Phelan's recitation of The Old Lady's Rosary was an inspiring part of the program.

Time rolled back for members as the minutes of the first meeting of the court, ten years ago, were read aloud.

All charter members were presented with lovely corsages and a beautiful floral vase was given to Mrs. Christine Michelson for her untiring court work.

At the close of the meeting, Grand Regent Mrs. Ida Forest invited everyone to proceed to the social hall where a beautiful birthday cake and delicious refreshments were served by Mrs. Helen Rode and her committee.

Members of the Mothers club of Our Lady of Perpetual Help school will meet at 7:30 p. m. Friday evening, instead of 8 p. m. as previously announced. The change in time was arranged because several of the members belong to the committee in charge of Boy Scout Troop No. 101 whist, which will be held the same evening.

Final plans will be completed this week for the whist sponsored by the Mothers club which will be held Friday, August 30, at 2 p. m. at Theatre hall. Many useful and attractive prizes have been secured by the committee for this occasion and the public is cordially invited to attend.

Committee in charge includes Mrs. Elsie Thomson, Mrs. Lorraine Wall, Mrs. Margaret LeHaye, Mrs. Marian Schubert and Mrs. Fred Klingler.

Court St. Mary Holds Whist Tomorrow

"Don't forget tomorrow is the day; 12:30 p. m. is the time, and Our Lady of Perpetual Help church hall is the place."

Song Bird Club
Late in the eighties the Portland (Ore.) Song Bird club, a society for the introduction of useful song birds, was founded. This organization raised considerable money and imported many birds between 1888 and 1907. It nearly succeeded in establishing the skylark in the neighborhood of that city between 1899 and 1908. The species certainly bred in the neighborhoods of Portland, Salem and Gresham, and existed for 20 or 30 years. The bureau believes that one of these colonies is thriving at the present time.

Daly City Police Tell Of Double Stealing

A story of double stealing among young thieves was related by Daly City police today as two San Francisco boys were questioned in the county juvenile home, Redwood City, in connection with the theft of an automobile belonging to Earl Smith, 451 Templeton avenue, here, August 10.

The boys, one 16 and the other 13 years of age, were taken into custody late last Wednesday in South San Francisco when police noticed that license numbers differed on the Smith car in which the youths were riding.

Absolving his companion, the elder boy said he took the car from a third boy who stole it here, police said. The other boy, who lives in San Francisco, subsequently stole another car there and went to Santa Cruz, where he is being sought, according to officers.

Although the younger boy has been released in the care of his sister, the older boy is still being held in Redwood City, police said. A warrant will probably be issued for the third boy, who is on probation from San Francisco juvenile court.

Colma Fireman Overcome By Smoke

One Colma fireman was overcome by smoke while fighting a blaze which caused \$1500 damage to the Highway Inn on El Camino Real here late last Wednesday night.

Nearly a dozen patrons fled to the streets as the flames rapidly ate their way through the flimsy interior decorations.

According to Chief John Garibaldi, the fire was caused by sparks from the fireplace which ignited drapes over the dance floor.

C. Guisti, volunteer Colma fireman, collapsed while handling a hose, and was carried outside by fellow firefighters.

Bob Hensy, bartender, remained in the building, attempting to fight the flames, until firemen prevailed upon him to leave.

The blaze, confined to the southern interior part of the building, was extinguished by Colma firemen in three-quarters of an hour. Daly City firemen answered the alarm, but their services were not required.

The night resort is owned by Andy Boni.

More than 1000 entries are expected in the domestic science department, which will again be under the direction of Mrs. F. M. Perkins of Redwood City. A new and original presentation is planned for the varieties of jams, jellies, preserves, canned fruits, vegetables, pickles and relishes which will be in the exhibit this year.

There were only 200 exhibitors in this division in 1935, but steadily increasing interest has brought entries from all over the county, from kitchens of hundreds of Peninsula housewives.

LOOK Lady! with JOSEPHINE HUDDLESTON

Despite all the blessings he so lavishly bestows upon us, old Sol is a meanie when he gets his rays on our window curtains. So, if the lower parts of your curtains wear out before the upper parts, which are protected somewhat by the window shades, don't blame your nice laundryowner just because he's handier than the sun.

In fact, the destructive action of sunlight on curtains is so provable that, if you check it yourself, you'll undoubtedly find the pretty wisps of color and ruffles on your south windows, where they are more exposed to sunlight, wear out quicker than those on the north side where less sunlight reaches them.

These are only a few things about curtains which every homemaker should know, according to the American Institute of Laundering, which is always testing methods of washing every kind of fabric for the mutual protection of housewives and laundries.

For example, homemakers now shopping for curtains are attracted to the tufted chenille or marquisette patterns in the pussy-willow, pin or cushion dot styles.

Pretty as they are at first, unless you use care in choosing launderable types, they won't be nearly as attractive after they've been laundered, even when handled with all the skill and special equipment used by professional laundries for the protection of delicate fabrics.

In a test made at the American Institute of Laundering, many of the tufts came out of a

certain type of chenille curtains in one washing and, of course, this partly bald effect greatly impaired their good looks.

Dotted marquisette has its laundering problems, too. A very common complaint is that of yarn slippage—a misleading term to women who think of yarn only in terms of wool. However, the textile and laundering experts call all silk, cotton, linen, wool and synthetic fabric threads—yarn. So—yarn slippage it is!

Slippage means the pulling away of the threads from each other that gives fabrics a sleazy, worn appearance even when the threads actually aren't broken.

Then, too, dots lose their fluffy appearance and ruffles cannot be ironed or fluted without flattening the tufts or dots. Therefore, they lose the soft fluffiness which made them so attractive.

Bearing in mind these problems of laundering should make

your selection of curtains of more lasting satisfaction. And, remembering that sunlight is destructive to curtains should make you place the blame for their wearing out where it belongs—on old Sol who is a dear old fellow even though he is hard on our curtains.

For her displays she used Alex Craig and Azura varieties.

For Your Late Summer Menu

By BETTY BARCLAY

Not so many years ago in this country oranges were strictly a winter fruit. They ripened in sufficient quantities for commercial shipment only in winter until California growers discovered that Valencia orange trees planted in that state brought forth a summer ripening orange.

It is these California Valencias, known for juiciness and sweetness, that make possible our breakfast orange juice in summer, and which are always available throughout the warm months for refreshing salads and desserts. Summer orange plantings in the Golden State have been developed until today they are even more extensive than acreage of Navel oranges, the winter variety for which California first became famous. Development of the industry keeps workers busy around the calendar, picking fruit and preparing it for shipment. From the groves the oranges are trucked to packing houses where they are washed, graded, trademarked and packed with care for consumers throughout this country and in foreign lands.

Here is an excellent menu for late summer or early fall, topped off with a new recipe for one of the most delicious desserts you can make from summer oranges. If you wish, you can use oranges also in the fresh fruit cup suggested as the first course: they blend with other summer fruits and add flavor.

¼ cup sugar
2 egg yolks, beaten

Orange Chiffon Pie
1 tablespoon gelatin
¼ cup cold water
1 cup sugar

Compromise Plan

Transportation committee men of four Peninsula commuter clubs Friday night gave almost unanimous approval to the Market Street Railway company's compromise plan for improving facilities at the Third and Townsend street depot "as the best we can get at this time under the circumstances."

The plan would leave the present Townsend street tracks as they are and provide for installation of a third track to the south (toward the depot) to facilitate loading and unloading of passengers.

Eliminate Red Tape

Attempting to eliminate red tape in the payment of claims, the San Mateo County Fair association announced Monday that it would accept without argument the ruling of District Attorney Gilbert D. Ferrell Saturday in which he recommended that all county tax money spent by the association be spent through regular county channels rather than by blank check.

Official notice of the district attorney's ruling was presented to the board of supervisors yesterday. The board originally requested the ruling in order to be sure where to put the Fiesta appropriation in the budget.

Basic Tax Rate

San Mateo county's basic tax rate for 1940-41 fiscal year will be \$1.0711, if no alterations are made in the preliminary budget published this week, Controller Thomas J. Kane announced Monday.

Last year's rate was \$1.1316, making the tentative reduction this year 6.05 cents for each one hundred dollars valuation.

The preliminary budget made available Monday showed allowances by the board of supervisors of \$2,299,828.99, of which \$1,207,744.54 will have to be raised by tax levy.

The substantial reduction in the rate over last year was in part accomplished by board cuts in departmental requests amounting to \$27,578.38 Kane's figures show. Department heads had requested \$2,327,407.37.

Coach Announces Tentative Football Line-up

Surveying the sports field at Jefferson Union high school, Jeff coaches pointed out today that the season will be an interesting one, despite the fact that in football the team will be almost entirely new.

Coach John Mathews will be assisted in football by Coach Louis Tsoutsouvas, newcomer to Jeff this year. Three years as center on the Stanford university varsity team is included in the new coach's experience.

There will be a reserve team but no freshman team this year. The varsity line-up will be all new. Loss of Star Roy Guisti will be keenly felt and as yet it's anybody's guess as to how the new team will shape up. Practice will begin immediately after the opening of school.

In basketball, Coach Albert Biggs anticipates improvement in both 10's and 30's. A lot of good freshman material was developed last year by Coach Krogh. Two year's practice with the excellent equipment and gym at Jefferson should also add to the ability of this year's basketball teams.

In track, Coach Mathews expects an excellent season. Many veterans will be coming up from the light-weight team and Jefferson should stand a good chance for top honors this year.

Practically the same team will be on hand for baseball. Good replacements from the frosh and soph teams are anticipated and the coaches expect this year's nine to better last year's record of tying for second place in the P. A. L.

Tentative football line-up includes:

C	Bill Rigler
RG	George De Bono
RT	Don Hertz
RE	Jack Faulk
LG	John Shawer
LT	Bob Rosenberg
LE	Herb Poddig
Quarterback	Lester De Martini
RH	Bill Lekoff
LH	Harlen Ferrando
Fullback	Bob Capps

Concord Grapes

In 1840 some boys of Concord, Mass., gathered wild grapes in the nearby woods. On their way home they threw some of the seeds on the land of Ephraim Bull. Mr. Bull preserved one of the seedlings that sprang up, and when it fruited he planted its seeds. One of the second generation of plants proved superior to the others, so he preserved this, which became the parent of that variety of grapes. Thus the "Concord" grapes.

Lecturer Outlines Britain's Defenses

"This World War II came just in time to unite the British Empire by great and strong bonds of a common cause. This war will push England on to greater heights of human achievement." This was the declaration of Lieutenant-Colonel Rhys Davies speaking for the British consul before the San Bruno Exchange club last Thursday evening.

Davies, a military expert, author and lecturer, gave a vivid description of England's defenses. He told of the solid personal unity of all the British people to their cause—that of preserving democracy and personal freedom. Davies also pointed out the importance of American friendship and expressed England's appreciation for cooperation extended by the United States.

Clive Saiz, Jefferson Union high school faculty member, for several years has held official posts in the San Bruno Exchange club.

Flounder Houses

A flounder house is a house with one wall entirely blank, built against a party line, and a single pitch roof sloping downward toward the opposite, lower side, thus shedding water on the owner's property. This type was often used for the rear extension of residences. They were built during the Eighteenth century. There are some of them now in Alexandria and Philadelphia.

Boy And Dog Partnership Basis Of New Film Story

One of the world's most basic combinations—a boy and his dog—provides the theme for Paramount's new romance "The Biscuit Eater," a story of Southern country life which opens tomorrow at the Daly City theatre.

The boy in the picture is played by little Billie Lee and the dog is portrayed by Promise, a handsome Georgia Pointer, who was brought to this country recently from England expressly to appear in the picture, and the story tells how the boy made a champion bird dog out of a "runt" or, to use the Southern expression for a dog of his type, a "biscuit eater."

Most of the cast of "The Biscuit Eater" has never appeared before motion picture cameras before. They are residents of Albany, Georgia, where the picture was made. Besides Lee the cast boasts of Cordell Hickman, Helene Millard, Richard Lane, Lester Matthews and "Snowflake."

New companion feature will be "Sandy Is A Lady," with Baby Sandy.

Local De Soto Dealer Attends Victory Banquet

In competition with 176 dealers and salesmen selling the popular De Soto car in Northern California, James E. Donahue, Daly City De Soto-Plymouth dealer, just returned from a spectacular victory banquet given in San Francisco's famed Fairmont hotel by James F. Waters, Northern California De Soto-Plymouth distributor.

The elaborate banquet climaxed a ten weeks' selling drive that shattered all previous records for a like period, with sales showing an 86 per cent increase over last year. Donahue returned to Daly City with several valuable prizes and many laudatory tributes still ringing in his ears for his part in accomplishing this remarkable record.

"While I am happy to be honored by Waters for helping to set new all-time high sales records," Donahue modestly stated, "I really feel most of the credit should go to cars of sterling merit and the wholehearted support of many loyal friends in this community."

"This summer definitely has been a buyer's market," Donahue went on to say.

"Shrewd motorists have been quick to sense the extra De Soto value and also the fact that National conditions clearly indicate higher prices for next year's models. Local motorists in ever-increasing numbers are backing their judgment by buying now while lower prices are still in effect for the smartest cars on the road," Donahue concluded.

New Motor Bike
A new "motor-assisted" bicycle was exhibited at a recent motorcycle and bicycle show in London. It is driven by a one-horsepower engine and is capable of 30 miles an hour. It will cover 140 miles on one gallon of gasoline.

'Biscuit Eater'

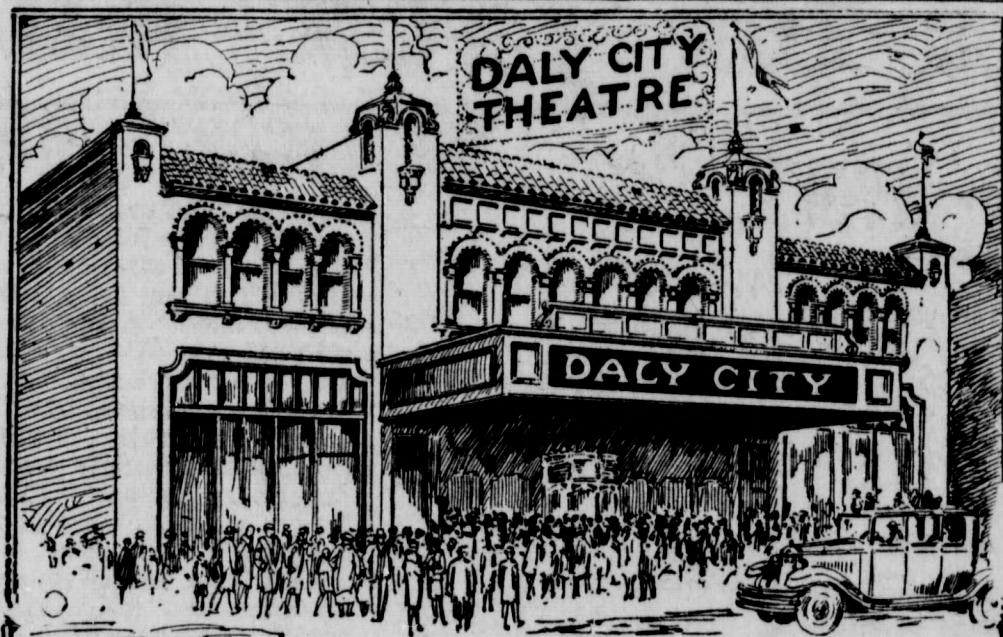

In the face of his dad's—Richard Lane—convictions that the pup is a "biscuit eater," a hunting dog not worth its keep, little Billy Lee pits his own judgment—and eventually supplies amazing supporting testimony. It's all part of the Paramount drama, "The Biscuit Eater," opening tomorrow at the Daly City theatre.

Hollywood "Who's Who" On Daly City Screen

Something unusual in movie fare will be seen on the Daly City theatre's screen tomorrow when a short subject entitled "Cavalcade of Academy Awards" comes to town. Presented by Warner Brothers, the short was produced by the Academy of Motion Picture Arts and Sciences under the personal supervision of Frank Capra at the dinner recently given at the famous Cocoanut Grove of the Ambassador Hotel in Hollywood. The picture is accompanied by the brilliant commendation of Carey Wilson.

Interesting Manuscript
What is called "the most interesting MS. in England" can be seen by visitors in the Library of Corpus Christi college at Cambridge. It is the copy of the Gospels which Pope Gregory sent with Augustin when he made his first missionary journey to convert the English to Christianity in the year 597.

No event in the theatrical world causes more speculation and interest than the awarding of "Oscar"—the coveted eighteen-inch bronze figure—for the year's most outstanding achievements in acting, producing, writing, photography and engineering.

John J. McGrath

Candidate For Congressman

John J. McGrath, candidate for congress, has been giving citizens and newspapers an opportunity to appraise him. McGrath is filled with energy, determination, and certainly believes in the things he talks about. He is widely traveled, has much experience and knows the world at first hand, according to his many friends.

John McGrath became a candidate for Congress in 1932 and very much a one man organization surprised his powerful opponents by being the first Democrat returned from this district in forty years, except the two years during the war period.

John McGrath after arriving in Washington in 1933 quickly developed into one of the most efficient and best liked congressmen on Capitol Hill, and very soon also became a personal friend of President Franklin D. Roosevelt.

From Congressman McGrath's previous business experience he soon made a survey of his district's requirements and at the end of six years he had secured more permanent benefits for his district than had been accomplished by all his predecessors for fifty years before.

McGrath is a firm believer in National Defense and as he explains, not for invasion but to place the United States in such a position that no combination or group of nations can ever reach our shores and take Old Glory down.

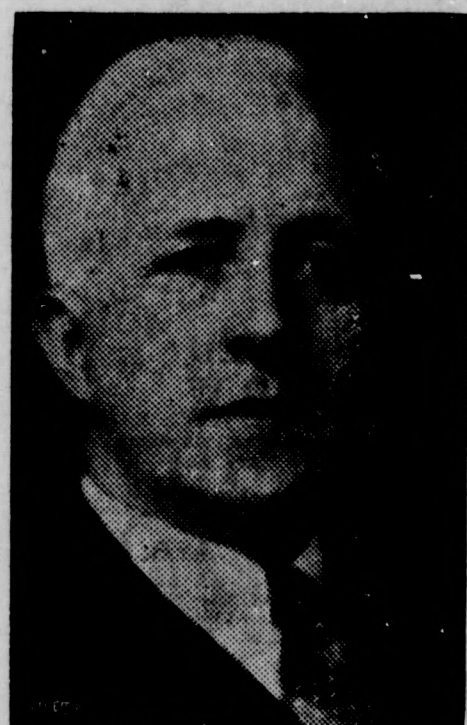

Mr. McGrath is a good friend of organized labor and during his six years in Congress has 100 per cent voting record in favor of labor.

(Signed) Committee For McGrath for Congress.

T. L. Hickey

Candidate For S. M. County Supervisor

Voters of San Mateo county, young and old, are rallying to the support of T. L. "Tom" Hickey in his race for supervisor.

His supporters stated that their campaign is meeting with unheard of results, and attribute this to the people's knowledge of his outstanding record of accomplishments while supervisor. A landslide is predicted with the election being decided in the primary.

Hickey during his sixteen years as supervisor gained an enviable state and county wide reputation as a man capable of getting things done in a clean, dignified, and harmonious manner. He is referred to as "Two fisted fighting Tom Hickey whose honesty has never been questioned."

A few of his projects were—

Initiated pay-as-you-go system of county finance, saving county half million in bond interest. Initiated construction of county hospital. Revised bids saved county approximately \$100,000. Secured double underpass, Bayshore highway, South San Francisco. Twenty-five years bank director, sixteen years supervisor. Fathered county Memorial Park project. Led movement to break bottleneck at Colma-Daly City. Cost state \$800,000. County \$12,500 first district road fund. Cost Daly City nothing. Initiated movement to build Bayshore road. Introduced resolutions for increased pay for labor, teachers, motor police and Building Trades scale. And, many other outstanding accomplishments.

According to friends, Hickey has stated that he will not treat the office of supervisor as a hobby or a sideline, but will devote his full time for the betterment of all concerned. He further stated: "People want action and harmony in our county. My knowledge of our county's needs, backed by sixteen years experience as supervisor, and my past record of deeds definitely qualifies me as the logical one to represent the people of the fastest growing and finest county in America!"

(Signed) Committee For "Tom" Hickey.

Turkish Messengers

The ancient Turkish nobles employed many lackeys and footmen, called peichs, as messengers. These couriers ran in their bare feet until continuous exercise of this sort over all types of roads so deadened and calloused their feet that they were able to shoe themselves with horse-shoes. To increase the resemblance between themselves and horses they carried a silver bit in their mouths while on errands for their masters.

Poole Support Gains Momentum

Support for John W. Poole of Redwood City in his campaign for re-election to the San Mateo County Board of Supervisors was rapidly gaining momentum to-day in all parts of the county.

Friends of the veteran supervisor pointed out that their campaign is showing definite results and that Poole's already large following is certain to be augmented by more than a sufficient majority to return him to the office in the August 27 election.

Poole, they pointed out, has shown a progressive attitude in all county affairs, looking not only at the current needs but also taking into consideration improvements that will benefit the county in years to come.

"Honest John" Poole has been one of the leaders in securing for the county recognition as a progressive area and a most desirable place to live.

Since his appointment March 21, 1927, to fill an unexpired term, Poole has been elected three times to the county's governing body. Never once during his 13 years of service has his integrity been doubted, it was pointed out. Poole is a retired Redwood City drayage company operator.

Dan Dolan Outlines Platform

Your supervisor shall be responsible to the people for the efficient administration of the affairs of your county, insofar as his jurisdiction over matters prescribed by law are concerned. No supervisor can evade such a mandate; and it is of the utmost importance that he shall establish and use practicable and effective means of exercising that executive control and supervision of the administrative program which he is directed by law to do.

I think of supervision and executive control as one of four constituents of public management, and wholly dependent upon the other three. These four principles—for their importance seems to justify such designation—may be stated as follows: (1) Knowledge of the program; (2) division of the program into working units, forming the basis of organization; (3) division of the program into time units, forming the basis of expenditure control; and (4) supervision.

To accomplish this program we must use money, men, machinery, materials and methods—all of which are common to the everyday activities of organized human enterprise. Supervision seems to consist therefore of making sure that these essentials are provided in appropriate amount, number and quality, and that they be used in achieving a predetermined goal.

The are called: (1) Budgetary practice; (2) personnel administration; (3) purchasing; (4) practical standards of field and office, and (5) performance reports.

No more important obligation rests upon the supervisor than to recognize the integrity of the budget.

I feel that the supervisor should (1) lay down broad administrative policies for the guidance of the whole service; (2) establish fair but definite standards for all employees; (3) standardize technical procedure and routine; and then (4) be alert to detect inefficiency and unsatisfactory performance of work, taking such action as will effect timely and proper correction and prevent a recurrence.

In asking your consideration of my candidacy for the office of supervisor, I make one, and only one, promise to the voters, and that is a BUSINESS ADMINISTRATION. If you believe I can serve you as the administrator of your business, then I seek your support now and on next Tuesday, August 27, 1940.

(Signed) DANIEL A. DOLAN.

These are busy days for President Franklin D. Roosevelt, the Democratic party candidate for re-election. His Secretary of State Cordell Hull recently scored a smashing victory at Havana in unifying the Western hemisphere economically, politically and militarily.

President Roosevelt has lead American preparedness for national defense. He recommends an air force and navy second to none and advocates the selective draft.

Self-Control

Men and women are not like leaves, blown about by every wind, or like clay, receiving and retaining whatever impress is made upon them. They have an inward force enabling them to control, to a large extent, the influences that bear upon them—to welcome some, to resist others, and not only passively to receive, but actively to digest and assimilate that which they receive, so that it becomes a very part of themselves.

His American debut was in "Hip, Hip, Hooray," the Hippodrome spectacle of 1915. Four persons were injured last Tuesday night in a head-on automobile collision on Junipero Serra boulevard near the Colma underpass and less than a block from the Junipero Serra hospital.

Adolph Henning, 20, Burlingame, James Hopkins, 20, Palo Alto, Mrs. David Kanter, 44, San Francisco, and Howard Topping, 24, Stanford university, were all treated at the Junipero Serra hospital following the crash.

Henning and Hopkins were riding in a car driven by Topping which collided with the automobile driven by Mrs. Kanter's husband, a San Francisco chiropractor. Topping told state traffic officers his car was forced over to the wrong side of the road by a third vehicle.

Ballots for their buddy of World War days.

American Legion members, according to a check made by the Citizens' Committee, sponsors of Ralph C. MacArthur, candidate for supervisor, will vote for the World War veteran candidate. Although the American Legion does not officially enter politics, there always is the spirit of comradeship which causes them to ballot, when all things are equal, for one of their own. The check of veterans indicates that MacArthur will get a good sized veteran vote on August 27, according to his sponsors who are canvassing veterans in the county.

This situation is paralleled in two well-known fraternal organizations that take no active part in politics; but as Mr. MacArthur, a member of these two fraternal organizations, is well known, it is reasonable to expect, say his sponsors, that the great percentage of the membership of these two organizations will vote for him.
